ANNEX 2- Information about the Buyers' Group

[A] KENTRO MELETON ASFALIAS (KEMEA – CENTER FOR SECURITY STUDIES)

Kentro Meleton Asfaleias (KEMEA – Center for Security Studies) will act as the lead procurer of ACTIVE PCP, in the name and on behalf of the Public Buyers Group (PBG) composed by 4 public buyers.

The Center for Security Studies (KEMEA), established in 2005 and acting as a think tank for the Greek Ministry of Citizen Protection, is a leading research and advisory organisation specialising in security, law enforcement, border management, crime and terrorism prevention, and civil protection. KEMEA conducts applied research, supports and trains security practitioners, and promotes cooperation among national Law Enforcement Agencies, research organisations, industry, and European counterparts. KEMEA has extensive experience in national and EU-funded security and innovation programmes, including Horizon 2020, Horizon Europe and ISF, with a particularly strong track record and proven leadership in innovation procurement. In particular, it has coordinated and participated in numerous Pre-Commercial Procurement (PCP) as Lead Procurer, as Contracting Authority in Public Procurement of Innovative Solutions (PPI), and other innovation procurement projects.

[B] PRIESGAIRINES APSAUGOS IR GELBEJIMO DEPARTAMENTAS PRIE VIDAUS REIKALU MINISTERIJOS FIRE AND RESCUE DEPARTMENT UNDER THE MINISTRY OF THE INTERIOR (PAGD)

PAGD is the Fire and Rescue Department under the Ministry of the Interior Republic of Lithuania. The main objectives of the Fire and Rescue Department under the Ministry of the Interior of the Republic of Lithuania are the following:

- organize activities of the state fire supervision;
- within the scope of its competence, organize and manage operations relating to fire fighting, rescue of people and property and mitigation of the consequences of fire;
- within the scope of its competence, manage activities of the civil protection system, coordinate implementation of emergency prevention, plan the national preparedness in order to implement tasks of civil protection system in the event of an emergency.

[C] CENTRUM NAUKOWO-BADAWCZE OCHRONY PRZECIWPOZAROWEJ IM. JOZEFA TULISZKOWSKIEGO - PANSTWOWY INSTYTUT BADAWCZY (CNBOP)

CNBOP-PIB is a national research institute with the mission of ensuring the public safety of the country in terms of fire protection, crisis management, civil protection, and civil defense.

The Institute is a specialized, modern scientific and research institution providing expert services, supervised by the Ministry of Interior and the Administration and the National Headquarters of the State Fire Service. The Institute boasts a highly qualified team ready to collaborate on research and

development projects. CNBOP-PIB has four laboratory teams equipped with over 330 specialized research stations and a separate department focused on modern drone and firefighting technologies.

CNBOP-PIB conducts, among other things, testing of firefighters' Personal Protective Equipment (PPE) and issues approvals for products intended for use in fire protection units.

CNBOP-PIB not only conducts research but also provides expert opinions, offers consulting and training services, organizes scientific events, publishes specialist publications, and supports the development of new technologies in its own certification and research programs.

CNBOP-PIB has experience in carrying out national and international projects in the field of defense, crisis management, and civil protection including the development of integrated rescue support systems, modern security technologies, and social education campaigns.

[D] PYROSVESTIKI YPIRESIA KYPROU*FIRE SERVICE OF CYPRUS (FCS)

The Cyprus Fire Service deals with the prevention and extinguishing of fires that threaten life and property as well as the detection and rescue of lives. The Cyprus Fire Service has specially trained personnel, special vehicles and specialized equipment. The Fire Service is also involved in many humanitarian and public assistance services. It has Fire Stations in all provinces, airports as well as the Special Disaster Response Unit "EMAK" which has specialized personnel with special communication systems and equipment for locating rescuing, etc. and is on call 24 hours a day, in the entire territory of the Republic of Cyprus. In addition, the CFS advises the public on fire protection issues and checks the accuracy of the measures taken for the construction of buildings, in terms of fire safety, in accordance with European and international standards.
